

FOAMING WAX FOR SELF-SERVICE JETS AND HAND WASHING

- **Creates a thick scenographic foam.**
- **Quick and filmy-effect rinsing.**
- **Ensures a super polished and bright bodywork.**

SUGGESTIONS

Use it in a foaming nebulizer or with PA system, so to make the wax foamy.

It can be use without a foaming system as well: there just will not be formation of foam.

DESCRIPTION

NEOS FOAM WAX creates a thick foam that homogeneously covers all external car surfaces, highlighting the scenographic effect to the customer, in particular way performing hand washing.

During the rinsing phase, the foam coat dissolves and water quickly slides away with a filmy-effect, leaving the entire surface completely dry, hydrophobic and water-repellent.

This film makes the bodywork extremely shining, protecting the car from dirt and easing next washings.

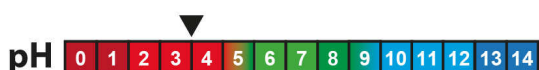

Specifically formulated to be used in self-service jets and hand washing.

It works with all kind of waters and at low dosages (about 5-10g per car).

FOAMING WAX FOR SELF-SERVICE JETS AND HAND WASHING

PHYSICAL AND CHEMICAL CHARACTERISTICS

Aspect	Clear Liquid
Color	Yellow
Odour	Light, characteristic
Specific weight	0.980 ± 0.01 g/ml
Solubility in water	Complete at any ratio
pH	3.5 ± 0.2
Chemical character	Cationic

FOAMING POWER

Very high

AVAILABLE PACKAGING

Drum of 200L - 016NEFW0200
Can of 25L - 016NEFWTN25
