HO.RE.CA. & FACILITIES

DESCALING ACID PRODUCT

- Easy-to-use lime scale remover.
- Easily and completely rinsable.
- Does not damage steel or aluminium.

SUGGESTIONS

With one product, scale can be removed from boilers, pasta cookers and kettles.

DESCRIPTION

The efficiency of the heating action of the element and the efficiency of dishwasher spray arms is affected by the presence of lime scale. Regular maintenance guarantees energy savings and cleaner dishwashers.

DISINCROSTANTE PER LAVASTOVIGLIE is an acid-based liquid formula (no hydrochloric acid) for the complete removal of lime scale residue. The combination of the ideal level of acidity and the cleaning effect allows for the elimination of grease and lime scale residues which form in the most hidden and most important parts of a dishwasher: nozzles, filters, heating elements, etc.

DESCALING ACID PRODUCT

PHYSICAL AND CHEMICAL CHARACTERISTICS

Appearance	Clear liquid
Colour	red
Fragrance	Weak characteristic
Specific weight	1.250 ± 0.01 g/ml
Solubility in water	Complete in all ratios
pH	< 1.5
Acidity (H3PO4)	approximately 38%

FOAMING POWER

Low

AVAILABLE PACKAGING

Box of 4 containers - 6Kg each - 016DISL0020

USE MODALITY

DISHWASHERS:

Add 0.5-1 L of product for every 10 L of hot water in the reservoir of the dishwasher. Switch off the detergent dosing pump and run the system for 15/20 minutes. Rinse thoroughly. Switch on the detergent pump.

WATER BATHS:

Dilute from 3% to 10% in hot water according to the level of scale to be removed. Leave to work for approximately 20 minutes, and then rinse. Scrub with a brush in the case of stubborn scale.
