

POST-CLEANSING SANITIZER OF CARPETS AND FABRICS

- Post-cleansing sanitizing product for fabrics.
- It contains an antimicrobial agent able to remove fungi, yeasts and bacteria.
- It prevents the formation of bad smells.

SUGGESTIONS

In order to ensure the best result, it is recommended to carefully wash the fabric before the treatment.

DESCRIPTION

M-SANITIZER is a post-cleansing sanitizing product for carpets and fabrics in general. Its special hydro-alcoholic formulation, gently scented, contains an anti-microbial agent able to remove and control a wide spectrum of fungi, yeasts and bacteria from fabrics. Thanks to its special formulation, it prevents the formation of bad smells and the degradation of fabrics. Ideal for the sanitization of carpets and fabrics in general.

POST-CLEANSING SANITIZER OF CARPETS AND FABRICS
